

## SAMA SARS-COV-2 BASICS SERIES

October 2020

As originally stated on the original BASICS Series, SAMA will update the series with new information as this becomes available.

The series was originally published in March and April 2020.

Knowledge on the SARS-COV-2 virus, transmission, clinical course, case fatality rates, infection control, treatments, disinfection and other aspects have progressed significantly in the last 6 months.

SAMA is endeavouring to ensure all materials are up-to-date with current epidemiological and clinical knowledge.

We apologise for any inconvenience caused.
