

SAMA ICD-10 DOWNLOAD AND ACTIVATION

The SAMA ICD-10 is a Windows based program and requires the following operating system to run and install on:

- Windows XP / Vista / 7 / 8
- Window's .NET framework (will install automatically if not already on your computer)
- A valid SAMA licence activation key for the ICD-10 browser

The following steps will be clarified in this document:

1. How to buy the ICD-10
2. How to download the ICD-10
3. How to install the ICD-10
4. How to activate the ICD-10
5. Licence Terms and Conditions

Licence period:

The ICD-10 program has a one year licence period valid from 1 January to 31 December. Should you purchase the product within this allocated time period, the licence will only remain valid for the remainder of the above mentioned one year period. A grace period of two months will apply, thus the program will remain functional for January and February the following year.

Step 1: How to buy the ICD-10

- ❖ Refer to SAMA's sales process document on how to purchase a SAMA product online.
- ❖ After a successful online sales transaction you should have received an email from SAMA's website with your invoice and product details.
 - If you purchased with a credit card you will receive this immediately after the transaction was successful.
 - If you chose to pay SAMA by means of an electronic funds transfer (EFT) you will receive an email requesting you to make payment, before the system generates an invoice and the product details.

Should you not receive this email within 48 working hours after payment was made, please contact SAMA's Coding Unit at 012 481 2073.

Electronic ICD10 Information

If you purchased an electronic version of the ICD10 you can install the program by

Step 2: How to download the ICD-10

- ❖ Open the email sent from SAMA to the email account as stated in the online sales process.
- ❖ You will note the words *"If you purchased an electronic version of the ICD-10 you can install the program by clicking here"*
- ❖ You will also note the Activation Key for each of the licenses bought, as indicated in the red box below.
- ❖ Before you download and install the Windows ICD-10 ensure that your computer complies with the set requirements to run the software.
- ❖ To download the program click on the link – *"clicking here"*, as indicated by the red circle on the left.

- ❖ Your internet browser should automatically open and redirect you to the following URL webpage: <https://www.samedical.org/downloads/icd10/Setup.exe>

- ❖ Your copy of the ICD-10 will automatically download from this website. Notice the download in the bottom left hand corner of your internet browser. (Depending on which browser you used – for demonstration we used Chrome.)

- ❖ Should you receive this error message, please click on the drop down arrow and select 'Keep'. This message might display depending on the security of your internet browser.

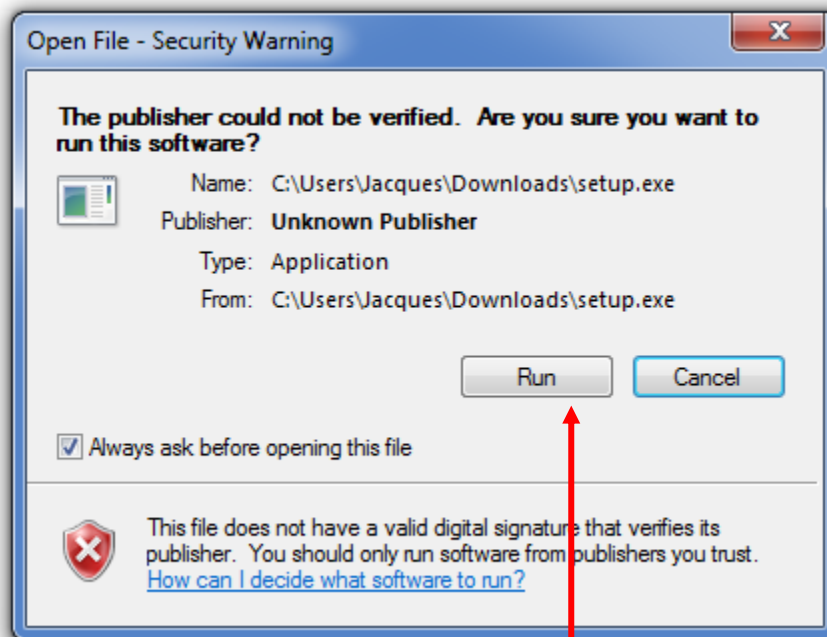

- ❖ Once the download is successful and complete you will see the "setup.exe" file.

- ❖ You have now successfully downloaded the SAMA ICD-10. The next step is to install the program onto your computer.

Step 3: How to install the ICD-10

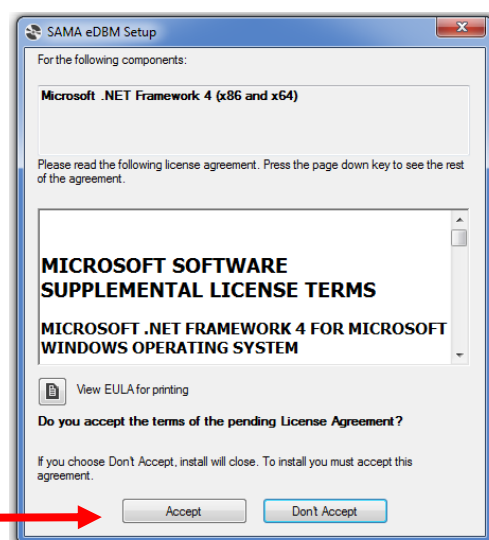

- ❖ Once you have successfully downloaded the SAMA ICD-10, click on the “setup.exe” file which appear after the download is complete.
- ❖ The following security Warning will pop up on your computer’s desktop. This occurs because the program was not designed by Microsoft.

- ❖ Click on “Run” to install the ICD-10.

Additional step for some users

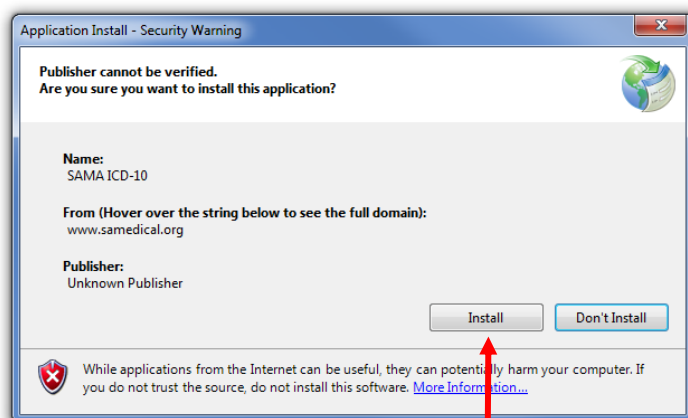

- Depending on the version of Windows running on your computer you might receive this “Microsoft .NET Framework 4” install screen. This is a driver that has to be installed on your computer before all SAMA’s coding products can be installed. Newer versions of Windows might have this driver installed on purchase or with regular updates of Windows, thus not everyone will follow this step.
- Click on “Accept” to install the “Microsoft .NET Framework 4”.

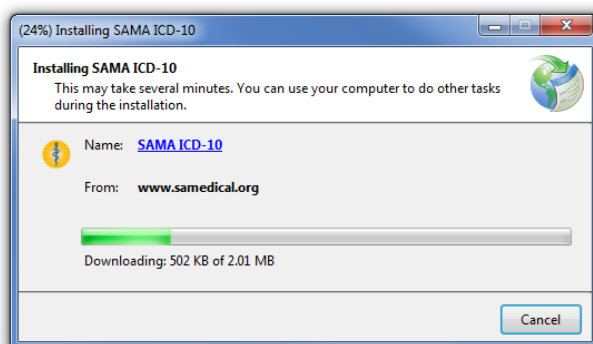

- The installing of Microsoft .NET Framework 4 should start automatically.

- ❖ To install the SAMA ICD-10 application this screen will appear once the .NET Framework has completed its install.

- ❖ Click on “Install” to install the program.
- ❖ The program will then start to install on your computer.

- ❖ Wait for the installation to complete. This will take several minutes.
- ❖ Once the installation is complete the above screen will automatically close and a SAMA ICD-10 application icon will appear on the desktop of your computer.
- ❖ You have successfully installed the SAMA ICD-10.

Step 4: How to activate the ICD-10

Please note that this activation will require an active internet connection

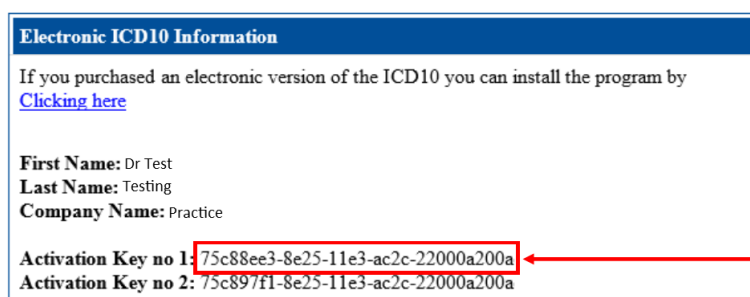

Open the ICD-10 by double clicking on the icon on your desktop.

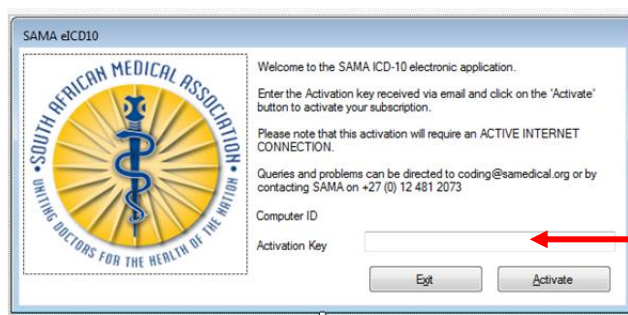

- ❖ The program should open and display the following screen.

- ❖ Refer back to the email sent to you from SAMA from where you downloaded the ICD-10. You will note at the end of the email an Activate Key.

- ❖ 'Copy' this activation key by double clicking on the numbers. Alternatively record this unique key and keep it handy to type it in the Activation box in the ICD-10.
- ❖ Return to the SAMA ICD-10 and 'paste' the activation key in the box provided. Alternatively retype the key.

When you have inserted the Activation Key, click on "Activate". The program should activate your licence.

- ❖ You will now be able to work on the SAMA ICD-10 program.
